RECENT EFFORTS TO LIMIT FEDERAL COURT JURISDICTION AND REMEDIES: A CIRCUMVENTION OF THE AMENDMENT PROCESS? 449

Legislation proposed in the 97th Congress seeking to limit federal court and Supreme Court jurisdiction to grant certain remedies in controversial areas of constitutional law raised the recurring question of what limits exist on congressional power under article III of the Constitution. The author reviews previous efforts by Congress to limit federal court jurisdiction and analyzes the most recently proposed legislation in light of the Supreme Court decisions which apparently prompted the introduction of these bills. He concludes that the proposed legislation represented a congressional effort to vitiate the effect of controversial decisions by manipulating jurisdiction and circumventing the constitutional amendment process, and warns that future efforts to enact similar legislation could precipitate a dangerous constitutional crisis.

THE EMPLOYMENT-AT-WILL RULE: THE DEVELOPMENT OF EXCEPTIONS AND PENNSYLVANIA'S RESPONSE 477

The employment-at-will rule, which permits termination of employment without cause, has been the subject of controversy since its inception. Until recently, however, the rule has been strictly construed against the employee. The author discusses the current trend in the courts to liberalize the rule by developing good faith and public policy exceptions. After a general historical review and an analysis of the exceptions recognized thus far by the courts, the author concentrates on Pennsylvania law, both common and statutory. The author concludes that the judiciary should adopt a broad public policy exception and suggests a statutorily based "good cause" requirement.
